THE GAME OF LIFE. Some poet has said that the Game of Life

Some poet has said that the Game of Life
Is like to a game of eucher,
Where man is in a continual strife
For pleasure or else for lucre.
And woman, of course, is embraced by man;
Though she fancies not club nor spade
She is sure to display a winning "flush"
When hearts is the trump that's made.

She can manage with case a hand of hearts And to play them is well inclined: Though a true woman will frankly aver That diamonds are more to her mind.

But the man who tires of playing alone And chooses a partner for life, Must use his own spades and never play clubs Else the game will be nothing but strife. It's the proper thing to lead out with hearts,

While playing the very first hand; But later, hearts are ignored And diamonds increase in demand Oh! woe to the player who's lacking in these It's plain defeat ere he begins,

A DECIDED DIFFERENCE.

The very best man with only a spade In this Game of Life seldom wins.

Lily Everest and Effie Dwyer were cousins, but their homes were far apart, and they had never seen each other until the summer they met under Grandmother Farley's roof.

They arrived on the same day and were given a room together overlooking the back garden. But they were so tired, and it was so late when they arrived that they ate their supper and went to bed without seeing anything outside the

Effie was the first to wake next morning and she sprang oud of bed and ran to the open window.

"Oh how lovely!" she exclaimed. "What is lovely?" Lily sprang p too. "Do you mean the flowers? They are pretty, but I hate the country. It's so dull! What on earth are we going to do with ourselves all day here?" Effie stared at her in suprise.

"There will be plenty to do" she said. "The days won't seem half TAKE long enough. Just as soon as breakfast is over I am going out to see all the animals, and then I will take a basket and my microscope and go to that belt of woods over there and look up bugs and beetles. And I want to get ever so many botanical specimes while I am here.'

the disease was growing upon me and I felt that I had come to the home of my wife and of her sister to die.

"When the disease first came upon me the numbness began in my heels and pretty soon the whole of both my feet became affected. There was a cold feeling across the small of my back and downwards and a sense of soreness and a tight pressure on the chest. The numbness gradually extended up both legs and into the lower part of my body, I felt that death was creeping up to my vitals and I must say I longed for the hour when he should relieve me of my pain and misery. I was still taking the medicine ("It was lodide of Potassium," said his wife) and was being rubbed and having plasters put all over my body, but with no benefit.

"The latter part of last June I learned of the case of Mr. Chas. Quant of Galway in Saratoga county, cured by the use of Dr. Williams' Pink Pills for Pale People. I had never heard of those blessed Pills before but I thought if they could cure Mr. Quant of the same disease with which I was a filled the perhaps they would also cure me. So I sent to the Chas. H. Sager Company, the popular Auburn druggists and chemists at 109 and 111 Genesee St. and got three boxes of the Pink Pills and began taking them at once, following all the directions closely. In three weeks time I was so improved that from being helpless, I was able to help myself and to get up and go to work and to walk every day from No. 74 Walnut St., where I then lived, to Osborne's New Twine Factory, Seymour and Cottage Streets—(More than a mile, where I was taking Pink Pills.

'Another thing,' said Mr. Donnelly,

Pink Pills had proved efficacious in making most wonderful cures. These pills contain in a condensed form all the ele for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciati ca, neuralgia, rheumatism, nervous head-ache, the after effects of la grippe, palpi-tation of the heart, pale and sallow com-plexions, and that tired, feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic crysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness.

They build up the blood and restore the glow of health to pale and sallow complexion. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. These Pills are manufactured by the Dr. Williams' Medicine Company, Schenectady, N.
